

CHILDREN ARE THE ORPHANS OF JUSTICE

The Prisoners Hope is answering the needs of the children to help stabilize the emotions of anxiety, confusion, anger and encourage a healthy outlook during very tumultuous times. Children with an incarcerated parent must deal with the complexities of high-stress life situations caused by a fractured family, often complicated by drugs and alcohol, family/neighborhood violence and foster care. And with the second highest percentage of children who have or have had an incarcerated parent, Kentucky children have been especially affected and their futures are at risk. This is something we can't ignore.

Jesus loved everyone, especially the little children. Therefore, ours is a great calling. The Prisoners Hope ministry exists, not to answer this calling as a burden, but to accept it as a personal and distinct challenge of our generation and culture. Mentoring those in the state of pre-incarceration, incarceration or post-incarceration is a very demanding and difficult endeavor; it is not for the faint of heart. How blessed we are to gain the trust and relationship of hardened hearts that sets lives on a course of healing and new choices. Besides prayer and hands-on help, your contributions and donations afford necessary, material provisions for new beginnings. Clothing, shelter, food, transportation, cell phones...the basics most of us take for granted. This ministry operates solely on donations and financial assistance and 100% goes to our 501(c)3 organization. All proceeds are used to re-build lives and to assist in the endeavors to which we have been commissioned as a ministry outreach. Your gift has an eternal impact on the lives touched and healed through this ministry. Will you become and/or continue to be a partner with The Prisoners Hope to serve the least of His brothers and sisters?
